SilverSteps: data sources

Every dataset behind the senior footfall model, the barrier audit and the map. All are public except Google Street View, which uses our API key.

Population and housing

Dataset	Publisher	Where from	Used for
Singapore Residents by Planning Area / Subzone, Single Year of Age and Sex, June 2025	SingStat	singstat.gov.sg (CSV, saved in pipeline/raw/respopagesex2025.csv)	Residents aged 65+ per subzone
Resident Population by Planning Area/Subzone and Type of Dwelling (Census 2020)	SingStat	data.gov.sg `d_7f243956483d5901f237e6f87b096636`	Share of each subzone living in HDB flats
HDB Property Information	HDB	data.gov.sg `d_17f5382f26140b1fdae0ba2ef6239d2f`	Every HDB block, its flat count and year built
HDB Existing Building (GeoJSON)	HDB	data.gov.sg `d_16b157c52ed637edd6ba1232e026258d`	Block footprints, which give each block's location
Master Plan 2019 Subzone Boundary (No Sea)	URA	data.gov.sg `d_8594ae9ff96d0c708bc2af633048edfb`	Region and subzone boundaries
OneMap Search API	SLA	onemap.gov.sg	Locating blocks that didn't match a footprint

Places seniors walk to

Dataset	Publisher	Where from	Used for
Hawker Centres (GeoJSON)	NEA	data.gov.sg `d_4a086da0a5553be1d89383cd90d07ecd`	Hawker centres
CHAS Clinics (GeoJSON)	MOH	data.gov.sg `d_548c33ea2d99e29ec63a7cc9edcccedc`	Clinics
Eldercare Services (GeoJSON)	MOH	data.gov.sg `d_f0fd1b3643ed8bd34bd403dedd7c1533`	Eldercare and Active Ageing Centres
OpenStreetMap	OSM contributors	BBBike Singapore extract (download.bbbike.org), plus the Overpass API for the first Ang Mo Kio run	Bus stops, MRT exits, supermarkets, parks, community clubs, polyclinics, markets, kopitiams and food courts, fitness corners

Paths and barriers

Dataset	Publisher	Where from	Used for
OpenStreetMap walking network	OSM contributors	BBBike Singapore extract	Footpaths, covered linkways, steps, crossings, kerbs, surfaces, lighting, slopes, tactile paving, traffic-light audio, benches
Google Street View Static API (images and metadata)	Google	Google Maps Platform, with our API key	Photo checks by Claude on the busiest paths, and "View in Street View" links
HDB Town Design Guides (16 PDFs)	HDB	hdb.gov.sg	Fix wording, likely owners, and planned works (pipeline/raw/planned_works.json)

Map display

Dataset	Publisher	Where from	Used for
OneMap Grey and Night basemap tiles	SLA	onemap.gov.sg	Background map on the site

Licences and credits

- **data.gov.sg datasets:** Singapore Open Data Licence.
- **OpenStreetMap:** Open Database Licence, credited as "© OpenStreetMap contributors".
- **OneMap:** SLA attribution. The site shows it alongside the OpenStreetMap credit.
- **SingStat:** its terms of use, credited as "Source: Singapore Department of Statistics".
- **Google Street View:** Google Maps Platform terms. We link to panoramas and don't republish the images.

Everything else is our own modelling: trips-per-week assumptions for each destination type, walking-cost penalties for steps, shelter and crossings, and the 800 m walking cutoff. The site labels these as assumptions in "How this works".
